Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The Advisory and the final Office actions are hereby withdrawn and prosecution is reopened to permit the reaching of a clear issue of patentability.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 43-46 are rejected under 35 U.S.C. 102(e) as being anticipated by Chem Abstract 137: 217352.

The reference discloses the synthesis of a phenoxy sulfonimide functionalized polyphosphazene copolymer in that poly(dichlorophosphazene) reacts with sodium 4-methylphosphonoxide and sodium sulfonimide phenolate.

The disclosure of the reference differs from the instant claims in that it does not disclose the copolymer product of the formula in claim 43.

However, the composition disclosed by the reference is prepared from reactants under process conditions that are inclusive of the claimed reactants and conditions. In view of this similarity, it would appear to be inherent that the product, a copolymer of the claimed formula, could be prepared following the teaching of the reference. See *In re Best*, 195 USPQ 430, 433 (CCPA 1977).

Claims 43 and 46 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 43 and 46 are indefinite in that x and n in the claimed formula are not defined. A "Phosphorus nitrogen compounds'copy" has been submitted to show that x may be 0, 1 or 2. However, these variations and the corresponding formula must be in the claims.

Claims 1-8, 36-42 and 47-61 have been withdrawn from consideration.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duc Truong whose telephone number is 571-272-1081. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
